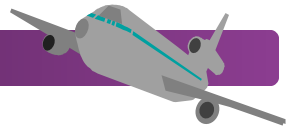
Logical Flow Process

Defense Travel System-Limited



- Establish Organizations/Sub-organizations
- Set Up Groups
- Establish Routing List Names for each Group of Travelers
- Establish Traveler Information and Permission Levels for DTAs, AOs, COs
- Establish Traveler Information for the Travelers
- Set Up Lines of Accounting
- Establish Budgets

Establish Organizations

Defense Travel System-Limited

- Identify your Defense Travel Administration (e.g. Finance, Transportation, Personnel, IT)
- Identify a Lead DTA
- Start with the current organizational chart
  - ✔ Examine travel needs
  - ✔ Examine the current processes

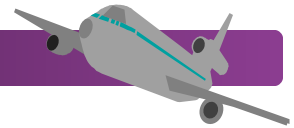
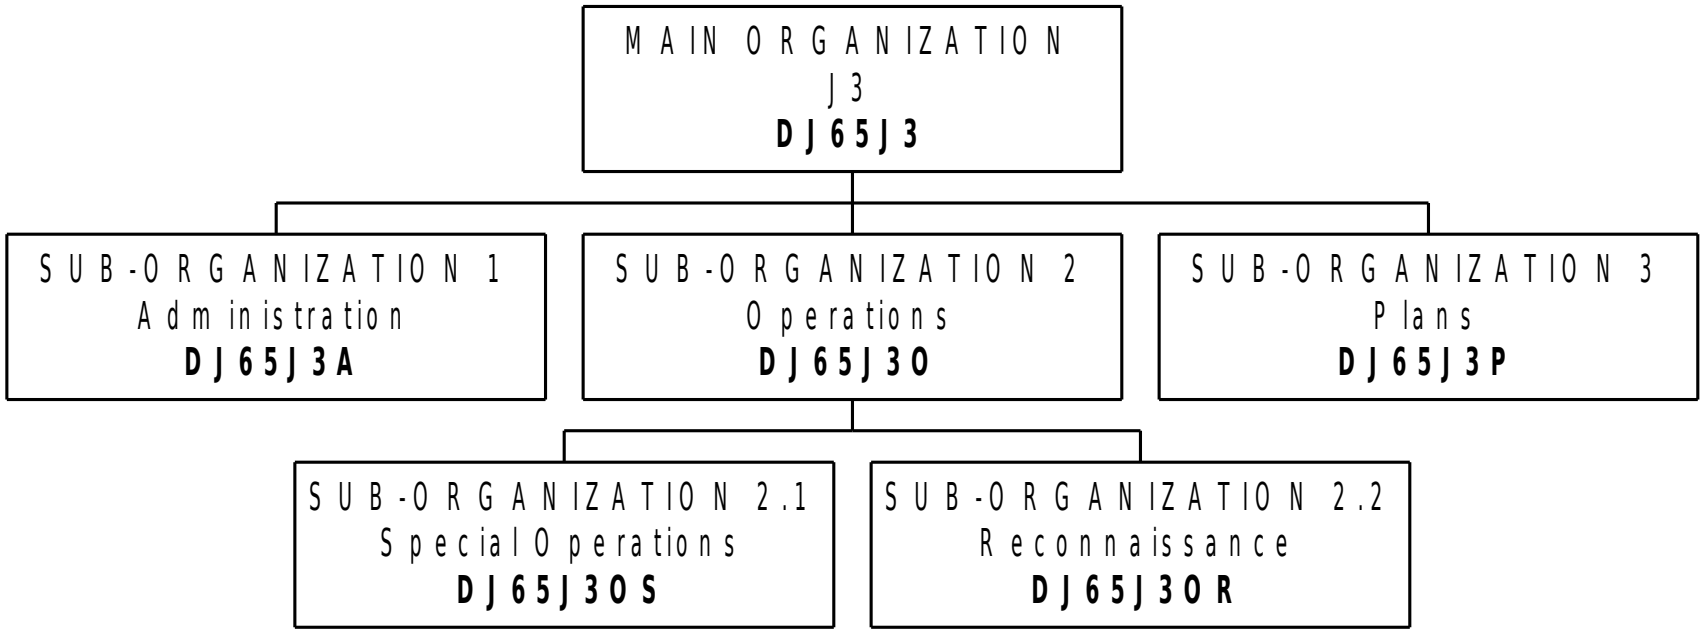
DJ65J3O			Operations	
DJ65J3OS			Special Operations	
DJ65J3OR			Reconnaissance	
DJ65J3P				Plans

Organizational Naming Sequence Example

Defense Travel System-Limited





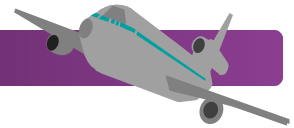
Set Up Groups

- Composed of travelers who have something
  in common (e.g. same project, department,
  or administrative support person).

- Can exist at any level in the organization. Travelers may be part of more than one group

Considerations for Setting Up Groups

Defense Travel System-Limited



- ✔ Mission - travel processes (Travelers vs. Government entity)
- ✔ Number and frequency of travelers

A Main Group is recommended.
It enables the DTA to access, view and edit traveler's information.

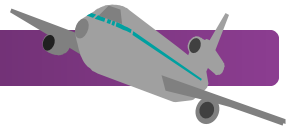
Routing Lists

Defense Travel System-Limited



- Document Routing:

  - ✔ Facilitates electronic review of documents
  - ✔ Signed documents are automatically transmitted

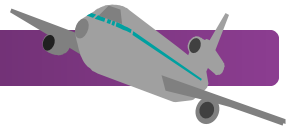
    to the next user identified on the routing list

- Routing Lists are normally associated with groups and
  are available to travelers by their organization

- May need more than one routing list per group (e.g. AOs may need routing lists different from their travelers)

AOs and COs

Defense Travel System-Limited



Determine the AO/CO for each group's routing list:

- ✔ AO is responsible for reviewing and approving authorizations and vouchers
- ✔ CO certifies claims for payment

AO and CO "SHOULD" be the same person under DTS Limited

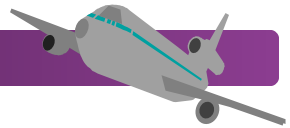
Document Types

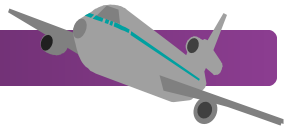


DTS-Limited has three document types:

- ✔ Authorizations (Travel Orders)
- ✔ Vouchers (Travel Vouchers)
- ✔ Local Vouchers

Status Codes

Defense Travel System-Limited



Document Status Codes:

- Certified - Funds are available
- Approved - Travel or travel expense is approved

✔ **“Approved” is selected as last step**

✔ **If AO/CO are same, only select “Approve**

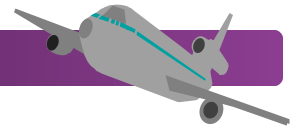
Establish DTA, AO/CO, and Traveler Information

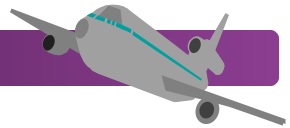


Information needed to load DTAs, AOs and COs:

- Personnel information
  (name, SSN, clearance, etc.)
- Organization and organizational access
- Group and group access
- Routing list
- AO/CO
- Permission level(s)

Permission Level

Defense Travel System-Limited

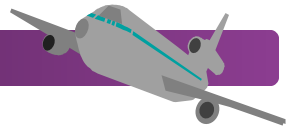


- ✔ **Level individual is assigned while using DTS Limited**

- ✔ **Lead DTA will have the highest level of access to grant the same or lesser permission levels to other DTAs, AOs, COs and travelers within their organization**

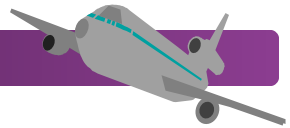
Permission Levels

Defense Travel System-Limited



Permission Level	Document Access/Tasks
6	For Use of Lead DTA under DTS-Limited
5	View organization documents/ edit organization tables and
data	
4	Not used in DTS-Limited
3	View budgets and lines of accounting/ setup and review
budget	
2	View travel documents/ approve and sign travel documents
1	Not used in DTS-Limited (CTO)
0	Individual travel document/ basic traveler tasks

Permission Levels

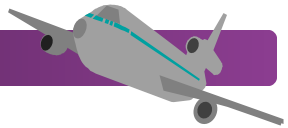


Designate permission levels for all users:

- Lead DTA: Levels 0-6
- Organizational DTA: Levels 0-5
- Finance Officer: Levels 0,2,3
- Authorizing Officials: Levels 0,2
- Certifying Officials: Levels 0,2
- Traveler: Level 0

Organizational Access

Defense Travel System-Limited



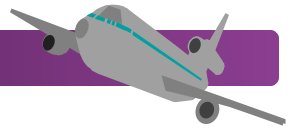
- Allows system users to view and edit data pertaining
  to their organization, depending on permission level

- Valid values in the DTS-Limited software are *None* or
  a specific organization

- Everyone in DTS-Limited should have Organizational
  Access - Usually the organization to which the traveler belongs

Group Access

Defense Travel System-Limited



- Group Access allows identified personnel serving as a Government Entity (e.g. DTA, AO/CO, etc.) to view and edit traveler information and travel documents.

- Organizational DTAs, COs and AOs will normally have group access, which allows them to access travelers they are responsible for

- A typical traveler will not have group access, unless they are acting as a Government entity

- The choices in DTS-Limited are *None* or any group within the organization

Defense Travel System-Limited

Semi-automated:

- Uses PMO Microsoft Access LOA Utility Program
- Converts Standard LOA into LOA format that DTS Limited can use
- Needs MS Access 97 or later

Manual:

- Use Worksheet (6) to manually convert
